

ANTONIA J. MILLET

Ph.D. Student, Department of Biological Sciences, Florida Atlantic University

Email: toni.j.millet@gmail.com | Website: antoniajmillet.github.io

EDUCATION

2026-Present Ph.D., Integrative Biology, Florida Atlantic University, Davie, FL
 Advisors: Dr. Vanessa Moreira C. Fernandes and Dr. Jacob S. Francis

2022 B.S., Biosciences, Rice University, Houston, TX
 Advisor: Dr. Tom E.X. Miller

RESEARCH AND PROFESSIONAL POSITIONS

2024-2026 Lab Coordinator, Florida Atlantic University, Davie, FL
 2023-2024 Technician, University of Florida, Gainesville, FL
 2023 Technician, National Ecological Observatory Network, Gainesville, FL
 2022-2023 Plant Ecology Intern, Archbold Biological Station, Venus, FL
 2021 Undergraduate Research Fellow, Rice University, Houston, TX
 2021 Undergraduate Research Intern, Rice University, Houston, TX

PUBLICATIONS (* indicates undergraduate researcher)

Manuscripts under review

Hahn PG, Navia L, **Millet AJ**, Holt RD, Baruzzi C. Incorporating trait matching into consumer-resource models for a predictive functional trait ecology. Manuscript under review at *Current Opinion in Insect Science*.

Bloom A*, **Millet AJ**, Aki GM*, Grable D, Johanson EN, Francis JS. Leaves and stigmas differ in raphide morphology in *Richardia grandiflora*. Manuscript under review at *American Journal of Botany*.

Francis JS, Pernat N, Likendey T*, Mason B, Lange J, **Millet AJ**, Bloom A*, Callaghan C. The presence of generalist plants in urban greenspaces predicts pollinator diversity. Manuscript under review at *Biology Letters*.

Williams J, Barker D, **Millet AJ**, Carcache J, Francis JS. Petal infrared transmission warms flowers and reduces microbial abundance. Manuscript under review at *New Phytologist*.

FUNDING AND AWARDS

Fellowships and Awards

2026 \$159,000 National Science Foundation (NSF) Graduate Research Fellowship
 2026 \$42,000 McKnight Doctoral Fellowship, Florida Education Fund
 2026 \$10,000 WLW-ECOS Ph.D. Fellowship, Florida Atlantic University

2026	\$300	Plant Population Ecology Section Travel Award, Ecological Society of America
2022	\$500	Undergraduate Travel Award, Emerging Researchers National Conference in STEM
2021	\$1,000	Cullinan Summer Research Fellowship, Rice University
2021	\$3,000	Summer Undergraduate Research Fellowship, Rice University

PRESENTATIONS

Invited Presentations

- Matlick S, **Millet AJ**. 2023. National Ecological Observatory Network at the Jones Center. The Jones Center at Ichauway, Newton, GA, United States.
- Millet AJ**, David A. 2023. Tough scrub plants and the fragile fungi that help them thrive. Archbold Biological Station, Venus, FL, United States.
- Millet AJ**, Miller TEX. 2021. Variation in a grass-microbe mutualism across Texas landscapes. Central Texas Restoration Reunion, Austin, TX, United States.
- Millet AJ**, Miller TEX. 2021. Endophytes: The unseen allies of plants. Discover Research Lightning Talk, Office of Undergraduate Research and Inquiry, Rice University, Houston, TX, United States.

Contributed Presentations

- Millet AJ**, Francis JS, David A, Licona G, Joseph M, Williams JN, Carcache J, Fletcher O, Fernandes VMC. 2026. A missing dimension of restoration: Linking above- and belowground microbiomes in an endangered Florida scrub endemic. Ecological Society of America Annual Meeting, Salt Lake City, UT, United States.
- Francis JS, **Millet AJ**. 2025. Building a pollen image database to investigate plant-plant interactions in South Florida. Florida Native Plant Society Annual Conference, Gainesville, FL, United States.
- Millet AJ**, Baruzzi C, Hahn PG. 2025. A trait-based examination of the drivers of ecological communities. Florida Native Plant Society Annual Conference, Gainesville, FL, United States.
- Millet AJ**, Baruzzi C, Hahn PG. 2024. A trait-based examination of the drivers of ecological communities. Entomological Society of America Southeastern Branch Meeting, Augusta, GA, United States.
- Millet AJ**, Miller TEX. 2021. Variation of heritable symbionts in heterogeneous populations potentially explained by environmental factors. Rice Undergraduate Research Summer Symposium, Houston, TX, United States.
- Millet AJ**, Nguyen K, Williams J, Beckingham K. 2019. Knockdown of *rib* in the tracheal region of *Drosophila melanogaster* and its effect on burrowing, tunneling, and maturation. Rice Undergraduate Research Symposium, Houston, TX, United States.

TEACHING AND MENTORING

Teaching

Undergraduate Teaching Assistant, Rice University

2022 BIOS 340: Integrative Animal Physiology

Mentoring

WLW-ECOS Undergraduate Research Fellowship, Florida Atlantic University

2026 Mirvensia J. Joseph, poster presentation

2026 Adam Bloom, poster presentation

SERVICE AND OUTREACH

Professional Societies and Organizations

2026-Present Ecological Society of America, Plant Population Ecology Section

2024-Present Florida Native Plant Society

Educational Resources & Open-Access Tools

2024-Present Florida Library of Pollen ([FLiP](#)), Instance-Segmentation Pipeline Developer

Volunteering

2024-Present Science Olympiad Volunteer

2023-Present Miami-Dade Environmentally Endangered Lands Volunteer

2023 Florida State Fair Outreach Volunteer

2021-2022 Rice Wildlife Conservation Club Outreach Coordinator

2018-2021 Partnership for the Advancement and Immersion of Refugees Volunteer
